EDUCATION

Dr. A.P.J. Abdul Kalam Technical University

Bachelor of Technology in Computer Science

Lucknow, India

2021 – 2025

Sarvodaya Bal Vidyalaya

Class 12th, Percentage: 74%

Vivek Vihar, Delhi

2020 – 2021

EXPERIENCE

Full Stack Intern | AventIQ (Mittal Software Labs Limited)

Dec 2025 – Mar 2026

Delhi, India

- Worked as a Full Stack Intern, contributing to real-world web application development using modern technologies.
- Demonstrated strong commitment, performance, and professional conduct throughout the internship period.
- Collaborated in a team environment, showing a positive attitude and willingness to learn and adapt quickly.
- Gained hands-on experience in building scalable and efficient applications across frontend and backend.

PROJECTS

B2B Commodity Trading & Logistics Platform | *React.js, Node.js, Express, MongoDB, Redis, React Query, Redux*

- Architected and developed a scalable B2B commodity trading and logistics platform using the MERN stack.
- Designed and implemented modular RESTful APIs to manage supply chain entities such as freight pricing, ports, and incoterms.
- Built a responsive admin dashboard using React, Tailwind CSS, and modern UI libraries for an enhanced user experience.
- Implemented bulk data ingestion (CSV/Excel) using Node.js streams with Papaparse and ExcelJS for efficient data processing.
- Optimized performance using React Query, Redux Toolkit, and Redis caching, while securing the system with JWT-based RBAC.

Movie Ticket Booking App | *MERN Stack*

- Developed a full-stack movie ticket booking platform enabling users to browse movies and book tickets seamlessly.
- Integrated live location-based services to fetch nearby theaters and dynamically display show timings.
- Implemented real-time seat selection with availability checks for an efficient booking experience.
- Designed and developed a responsive UI using React and Tailwind CSS for cross-device compatibility.
- Integrated secure payment functionality supporting multiple methods such as UPI and NetBanking.

E-commerce Site - Vastra Clothing | *HTML, CSS, JavaScript*

- Developed a responsive e-commerce platform with a clean and intuitive user interface for clothing products.
- Implemented product browsing, category filtering, size selection, and quantity management features.
- Built core functionalities including Add to Cart, Wishlist, and Buy Now to enhance user experience.
- Integrated a secure checkout process supporting multiple payment methods.
- Optimized performance and ensured cross-browser compatibility for a seamless shopping experience.

TECHNICAL SKILLS

Languages: HTML, CSS, JavaScript

Frontend: React.js, Tailwind CSS

Backend: Node.js, Express.js

Database: MongoDB, Redis

State Management & Data Fetching: Redux Toolkit, React Query

Developer Tools: Git, GitHub

COURSEWORK

Database Management Systems, Data Structures and Algorithms
